this magnificent book opens up a novel arresting position on matters that have been debated for thousands of

years times literary supplement how do we judge whether an action is morally right or wrong if an action is wrong what reason does that give us not to do it why should we give such reasons priority over our other concerns and values in this book t m scanlon offers new answers to these questions as they apply to the central part of morality that concerns what we owe to each other according to his contractualist view thinking about right and wrong is thinking about what we do in terms that could be justified to others and that they could not reasonably reject he shows how the special authority of conclusions about right and wrong arises from the value of being related to others in this way and he shows how familiar moral ideas such as fairness and responsibility can be understood through their role in this process of mutual justification and criticism scanlon bases his contractualism on a broader account of reasons value and individual well being that challenges standard views about these crucial notions he argues that desires do not provide us with reasons that states of affairs are not the primary bearers of value and that well being is not as important for rational decision making as it is commonly held to be scanlon is a pluralist about both moral and non moral values he argues that taking this plurality of values into account contractualism allows for most of the variability in moral requirements that relativists have claimed while still accounting for the full force of our judgments of right and wrong

from one of the leading policy experts of our time an urgent rethinking of how we can better support each other to thrive whether we realize it or not all of us participate in the social contract every day through mutual obligations among our family community place of work and fellow citizens caring for others paying taxes and benefiting from public services define the social contract that supports and binds us together as a society today however our social contract has been broken by changing gender roles technology new models of work aging and the perils of climate change minouche shafik takes us through stages of life we all experience raising children getting educated falling ill working growing old and shows how a reordering of our societies is possible drawing on evidence and examples from around the world she shows how every country can provide citizens with the basics to have a decent life and be able to contribute to society but we owe each other more than this a more generous and inclusive society would also share more risks collectively and ask everyone to contribute for as long as they can so that everyone can fulfill their potential what we owe each other identifies the key elements of a better social contract that recognizes our interdependencies supports and invests more

in each other and expects more of individuals in return powerful hopeful and thought provoking what we owe each other provides practical solutions to current challenges and demonstrates how we can build a better society together

we are said to face a crisis of over criminalization our criminal law has become chaotic unprincipled and over expansive this book proposes a normative theory of criminal law and of criminalization that shows how criminal law could be ordered principled and restrained the theory is based on an account of criminal law as a distinctive legal practice that functions to declare and define a set of public wrongs and to call to formal public account those who commit such wrongs an account of the role that such practice can play in a democratic republic of free and equal citizens and an account of the central features of such a political community and of the way in which it constitutes its public realm its civil order criminal law plays an important but limited role in such a political community in protecting but also partly constituting its civil order on the basis of this account we can see how such a political community will decide what kinds of conduct should be criminalized not by applying one or more of the substantive master principles that theorists have offered but by considering which kinds of conduct fall within its public realm as distinct from the private realms that are not the polity s business and which kinds of wrong within that realm require this distinctive kind of response rather than one of the other kinds of available response the outcome of such a deliberative process will probably be a more limited and a more rational and principled criminal law

major scholars assessing a cohen s contribution to the debate on the nature of egalitarian justice
